

The following **105 Major Stakeholders in Prison Efficacy** received a hard copy of the book with a tailored letter, encouraging consideration of ending the Fools' Parade now infecting 30+ prisons. Most in Texas have a role responsibility too. At the end, a list of 400+ to whom a postcard was sent summing book.

➤ www.PreciousHeart.net/Seminary

Why place all online? Each of these 105 sent the book and 400 sent the postcard are major stakeholders. Bergner and Rideau, a precious few professors, the Louisiana *Advocate*, a couple of magazines have exposed some of the corruption, together an extraordinary indictment outlined in the book. Yet most of the others herein also have capacity to aid the end the Fools' Parade.

When Texas Prison Scams Religion, Second Edition ... Ides of March 2023

TBCJ are largely responsible for the Fools’ Parade expanding to 30-plus states, covering up successive exposures of nefarious scandals over the last 25 years in its Rehab Division. NOBTS’ failure to see two decades of being scammed. Both TDCJ, LDOC, and NOBTS supported the most scandal-ridden warden in U.S. penal history, all three are still totally oblivious to psychopathy, and then their lead researcher aided cover up with study not worth spit, Baylor’s Institute for Study of Religion Professor Byron R. Johnson (chap 24), who even mutilated three authors’ meanings. Except for The Advocate—by silence, several MEDIA share the 13-year partnership in the Fools’ Parade.

Strange as it is, this book of exposures is the result of 25 years and thousands of hours, over 1,000 hours in refining the Second Edition, yet both the schools AND the prisons have done little or ZERO research. Where are their written justifications, cost analyses, legal briefs on constitutionality, psychological toll, etc., other than simply favoring the prison directors’ Christian mostly Baptist fantasy? Where?

PRESIDENTS below—Dare you follow TDCJ’s modelling of the most scandal-ridden in U.S. penal history, TDCJ’s lying about neutrality and lying about cost, and TDCJ’s long history of cover up? PRESIDENTS—I ask for a minimum of one sentence, your reason/s, or—best—your school’s White Paper, or send my book back! Silence like a Cancer has grown for 12 Years – metastasizing a malignant Fools’ Parade to 30+ states & schools via gross naiveté.

June 15, 2023 ~ over a year after the first send

Patrick O'Daniel, TBCJ Chairman
Norton Rose Fulbright US LLP
98 San Jacinto Blvd, St. 1100
Austin, TX 78701

Dear Patrick: *Really?! ... You gonna do nothing, too? ... after a year?*

This is your legacy now. If read the book, then you see *another* documented line of credibility that exposes how seriously flawed Collier's feedback loop is in TDCJ, and then also exposes clearly how Collier was *overwhelmed* and duped by Warden Cain's bullshit along with naïve volunteer Grove Norwood's sales pitches.

I mention a few times in the book **my life being threatened**, mainly from the wardens excoriated—seriously, and Upshaw. Yet likely *not* if you continue to do *nothing*, for then I remain a fool, a misguided ex-employee that sorely failed to acknowledge his disciplinaries—clearly contrived—yet a fool in delusions of paranoia. That is why I did so much work. As a chaplain, I heard allegations galore, and from a few staff, most of which were paranoia. However, after Polunsky, I wish I had kept the names of a few staff that approached me in the '80s and '90s. Why I *recorded* several conversations. Why I submitted *videos* created by the Polunsky *lifers* of their own *zero* supervision *under* the high-resolution security cameras, even seen from a screen in the warden's office.

Yet this book is a capstone of 25 years of documented exposures of nefariousness *focusing* on the last 12 years of the Fools' Parade in TDCJ modelled after the most scandal-ridden warden in penal history. Listening to just a few of Cain's speeches (transcripts QR coded in the book), see Cain demeaning attorneys—like yourself—fellow wardens, all liberals, criminology progress, while mocking several faiths—Catholicism, Pentecostals, and Islam—as he makes dog turds look like chocolate chip cookies. Pay attention to how *easily* Collier was deceived in 2012 on many levels by a *Louisiana* warden—not a fellow director—**read, damnit, Patrick, read**—deceived by a *warden* who would *not* make it as a TDCJ warden. Yet Collier made Cain a *model* for TDCJ! Norwood *bragging* solely to fellow naïve Evangelicals that **“we did it like Cain”!** That was made clear a year ago in the rough first draft of the First Edition of *When Texas Prison Scams Religion*, which is finely tuned here.

Therefore, it is no surprise that *real* TDCJ wardens and a few nefarious executives in TDCJ have more royally deceived Collier for over a decade—as they did against me, ruining my career, the whistleblower.

You're a lawyer—expert in the law—not doubt a good one, or Abbott would not have chosen you. Listen to the Shawn Wallace recording. Wallace was played too, a go-between following orders, and ALL THE WORLD can see *every* sentence bulging with cover up at the highest levels. Why was TBCJ Chairman even consulted in the cover up? Wallace thought I was a TDCJ lawyer, and so he inadvertently *divulged* how TDCJ legal was helping cover up the vast array of criminal violations that I first exposed, which violations had been going on at Polunsky for over six years prior to my arrival in 2012! That recording alone should impel you to read the first 100 pages of the 700-page *Book of Secrets*.

You, too, have been duped. What *else* did the underbelly keep from Brad Livingston and Collier?

You join Wainwright in aiding the cover up of the Polunsky Fiasco, aiding ex-Chairman Bell's conspiracy of **cleaning crime scene contraband**, aiding this Fools' Parade of the state of Texas ordaining a child torturer to minister. You aid prisoner psychopaths counseling other prisoners *in their disorders*. You aid the most scandal-ridden ex-Louisiana warden in penal history as a TDCJ model, himself veritably *forced* to retire in 2015 with a class action lawsuit on civil rights violations that came to a head last year—2022!—one of the 100s of updates in the Second Edition. Nefarious staffers have cleared staff violators of policy and promoted violators for 25-plus years, not the least of which is traitor Marvin Dunbar, now head of TDCJ's compliance division.

You're the *chairman* of the TBCJ. It is *pretended* oversight **if all you see** is Collier's paperwork once a quarter. Herein is a horde of work that should have been done by TDCJ executives that directly relates to your singularly supreme authority, responsibility, and duty to honor. If you do nothing, *nothing* continues, as you have done nothing since I sent you the First Edition on the Ides of March 2022—a shame! I may not live long enough to see any redress, or TDCJ and chaplaincy come of age. Until *you* address the underbelly, you shall live in darkness while other staff suffer, some of the best leave, and the very mission of TDCJ continues to suffer.

Seriously, I'd come to a board meeting and ask you all in person, but after the *first* study of 12 years of minutes, TBCJ has **not once** made actionable an item from a citizen's testimony, *citizens* too low to really hear. Yet who else has even studied the state boards? You're a *lawyer* and should see more.

~ www.PreciousHeart.net/chaplaincy/TBCJ_2007-2019.pdf ➔

In a fund-raising letter on March 20, Grove Norwood bragged, “The State of Texas is unique in in all the world ... to prisoner rehabilitation.... [him being] allowed to offer a Christ-centered course of study to long-term prisoners that results in the first men and women ‘**Field Ministers**’ in world prison history. What we are doing is unequaled anywhere in the world” (bold mine). Indeed, it is first in naiveté and in zero accountability—*your baby!* www.PreciousHeart.net/Seminary/2023-03-20-Norwood-Letter.pdf →

But the above is only a snapshot. In the *Book of Secrets* alone I documented 40+ violations of policy going on for *years* at Polunsky that I was able to correct, and many others I was not able to correct because of the wardens’ incorrigibility—that the wardens *knew* about for years—including the most stunningly offensive with life-sentenced murderers allowed *daily totally* unsupervised access to computers, color laser printers, and digital cameras—yes, again—where TBCJ Chairman Bell helped supervise the *cleaning* of the crime scene, that Region Dir. Michael Upshaw and Wardens Timothy Simmons and Richard Alford *knew* all about for years, major security violations for years, with photos, videos, recorded interviews, and docs galore.

After a hardcopy of the *Book of Secrets* was sent to Texas governor, to your OIG, and to Brad Livingston—I had a **conference call with Bryan Collier** in which he was totally refused to **acknowledge any culpability**, but instead felt that my letters/emails were “harassment”: i.e., multiple **exposures** of violations at the Polunsky Prison and **exposures** of the cover up were **harassment to him!** I said “There is a whole truth here and we don’t know all”—that I have nailed in the *Book of Secrets*. Yet Collier said, “I do not see the conspiracy.... There is no conspiracy.... The Polunsky Unit did not conspire.” He did not read or listen to the other staff chaplains going back 6 years. Then CID Dir. Bill Stephens commented too, covering up completely, clearly owning Collier. Stephens tried to make me out a fool, lying that issues “were addressed” but were not—except as he sent his violating warden was the fox sent to investigate his own hen house. Stephens successfully convinced Collier there was *no issue* of significant security.

Stephens was part of that cover up that day in Collier’s office on that phone call.

While still at Polunsky, I saw the Polunsky Asst. Warden and Major sit with prisoners **in the dark** in the prisoners’ “computer control room” *as the prisoners violated policy*—very scary—before I blew the whistle. On a Sunday, Warden Alford sat with the prisoners *as the prisoners used contraband computers with ZERO supervision!* To this day, Dir. Collier feels *no warden did any wrong*, Collier completely hoodwinked and duped, but unable to address the *Book of Secrets*, how it took 4 weeks for TDCJ to *clean* contraband—even that piece of insanity—that a TBCJ *chairman* and Upshaw *cleaned* contraband so prisoners could continue unsupervised!

Worse—Patrick, you have Dir. Collier who was sold a load of pure bullshit from Warden Cain *while* Cain was the most scandal-ridden warden in U.S. history and made Cain TDCJ’s model and sent TDCJ wardens to hear Cain’s bullshit, knew it as such, but kept quiet to appease Collier. Those wardens’ silence is a degree of sycophancy hazardous to the TDCJ mission. Vestiges of those 2012 vast policy violations continue to this very day in the Polunsky chapel—**June 2023**—with prisoners not *totally* supervised on their computers, an electric cord under a rug that is trampled by prisoners at the front door, the hidden sound booth (behind which prisoners can have sex and trade contraband), the total absence of inventory tracking (especially the art supplies & paint¹). Some violations continue 11 years after I blew the whistle. Yet in 2012, it was 50x worse, with four staff chaplains at a loss regarding then Chaplain David Collier’s chronic lies and violations on a daily basis.

Tell me this, after I exposed the Polunsky Fiasco, it took the **TDCJ’s techs 4 weeks to CLEAN** the contraband that had come into Polunsky Prison over previous six YEARS. Listen to Collier who repeats “*no conspiracy*,” especially none against me, the whistleblower—hear Collier, who had the 700-page *Book of Secrets* but could not read it, itself standing unique in the literature indicting several wardens—**listen to Collier.**

www.PreciousHeart.net/OIG/14-Bryan_Collier-Maness-06-18-2013.MP3_11-13-2013 →

Also hear how Collier was lied to in that very call! He alleged that I emailed everyday, which was another lie, likely from then CID Dir. Stephens, that I “**bogged down their server**”—**just another lie to Collier.** If not Stephens, then find out who, and you have another top executive conspirator who aided the Polunsky Fiasco cover up. Reality is that the TDCJ server handling 30,000+ employees was *not* compromised by me. I emailed several over the course of 6 months, but not even every week, but never enough to *bog down* a TDCJ server—a simple though significant lie from the underbelly, that

¹ After an escape attempt from the Polunsky chapel, the TDCJ written security audit *failed* to determine how the escapees dyed their clothes, a poorly written audit indicating a poor or lazy investigation, nothing compared to the security audit of infamous Texas Seven in 2000 from the Connally Unit that resulted in murder.

nevertheless Collier believed and repeated in that call. Collier did **not** know that was **impossible!** I am sure **Stephens smiled** when Collier repeated that obvious lie on the telephone to me, and to all who listen to it.

That 30-minute conference call with Collier also substantiates a dozen letters and emails over the last decade, and books written since and now **this Second Edition**, and proves in spades that Collier's **feedback loop has been corrupted his entire time in the executive suite**. You have trouble believing that, yet the greatest testimony to that corrupt feedback loop is Collier's total consumption of a truckload of bullshit from Warden Cain, forcing TDCJ to model the most scandal-ridden warden—and, again, Cain's civil rights abuses just came to a head with a Class Action last year!—and the Wallace interview and the four weeks it took Wallace to *clean* the contraband, and the speedy promotions of all the staff involved in the cover up, including Wallace.

Read *When Texas Prison Scams Religion*. Then Polunsky Warden Richard Alford's *Tall Walls and High Fences, Officers and Offenders—The Texas Prison Story*, university advertised as the “first comprehensive history of Texas prisons.” Yeah, yet if you *read* it, you see how Alford put his cover up in *writing* for all the world to see, far from “comprehensive” as it covers up more than it reveals, supports the abuse to prisoners by prisoners (Building Tenders), and offensively covers up vast violations in the Ruiz class action (Preface B, xlv). Former CID Dir. Bill Stephens wrote the foreword. Yet the *Texas Prison Story* left out the TDCJ directors for the last half century! Their *storybook* and my book contain a fuller picture of the TDCJ underbelly for the astute. Irony of ironies—Stephens returns as director of the Texas Prison Museum, now in charge of TDCJ history!

Worse is that **in that phone call with Collier**, until this book, I resisted believing Collier malicious. But as I listened one more time to that 10-year-old interview, well, perhaps Collier *did know* of the violations back then and *aided* in cover up. FACT—there was no OIG investigation of the Polunsky Fiasco violations that *four* staff chaplains verified after a hardcopy of *Book of Secrets* was sent to OIG, or from the other books since.

www.PreciousHeart.net/OIG/01-TDCJ-Chap-Rick-Anderson-2009.mp3
www.PreciousHeart.net/OIG/02-TDCJ-Chap_Loren_Edwards_2010.MP3
www.PreciousHeart.net/OIG/03-TDCJ-Chap_Mary_Barry_2012.MP3

} These & links to more interviews are in the PDF of the *Book of Secrets* filled with *documented* nefariousness!

So, here is another letter, likely my last to you, Patrick, after 12 years of very hard work, work that TDCJ executives *should* have done, and who still cover up. Sadly, if you listen to that 30 minutes of me with Collier, I did mix a lot of stuff, including disciplinaries that Collier was aware of *then*. Fact remains that 30 or more Polunsky employees and department heads in 2012 **despised Chaplain Collier's continual violation of policies** that the wardens and then CID Directors Rick Thaller and Bill Stephens and Reg. Dir. Michael Upshaw cover up to this day. And today, June 2023, chapel prisoners use computers unsupervised a lot, in violation of policy, but *nothing* like documented in the *Book of Secrets* in the years leading up 2012 and my whistleblowing.

Want to know the real TDCJ? Listen to the interviews. Read the *Book of Secrets* and other books linked now for 12 years. See OIG's clear complicity in cover up and linked promotions. You, Patrick, hold a singular and awesome role in allowing psychopathic prisoners to counsel other psychopathic prisoners *in their disorders*, which is an insane program in itself and made nuttier in how every crevice of the Fools' Parade is compromised, just the nefarious have undermined chaplaincy for 25-plus years by repeatedly hiring of the lowest qualified of the applicant pool and so much more. Now the Fools' Parade spreads to 30 other *duped* state prison systems.

If you do **not** verify all this—well then—you should resign, too.

I'm right. I also imagine Collier is planning his retirement, now, while this remains **undone, not finished**, his legacy in aiding a culture of cover up, that is now a *part* of your legacy, and Wainwright's and Bell's legacies. When Christiana Melton Crain held your chair and hired Brad Livingston out of the TDCJ budget office (I think he came to TDCJ from the Texas Governor's budget office), **Crain said it was to end “the good ol' boy's” network**. Brad was a good fellow, knew numbers, yet could not know the “culture” and so goes a key dilemma for you and the TBCJ: without coming up through the ranks, and spending a decade *inside dealing with prisoners daily*, one *cannot* know the real prison. One's feedback loop is corrupted, compromised, for Collier is now the documented example of one who was *run by* those like Stephens and Upshaw who ran an underbelly culture.

As said in the epilogue of the *Book of Secrets*, it will take an enormous amount of work, a combination of Dirty Harry and Sherlock Holmes—some impossible now—to ferret out and find other employee victims of Stephens and Upshaw during their careers, to complement this with an *full analysis* of the Polunsky cover up.

ONE KEY mystery to solve is *how* the scum Upshaw was able to cover his tracks so well, convince so many, while violating policies himself, aided by wardens who feared him. TDCJ is no place for cowardly wardens.

There is no “making right” now, not after 12 years of pain and 1,000s of hours of unprecedented unique work, revealing many holes in TDCJ's own accountability loop. NO cost can compensate for the betrayal by

Michael Upshaw who led the effort that **forced** me to retire under falsified documents by compromised cowardly wardens, meticulously documented in the *Book of Secrets* (2013). What else could I do? I worked with many fine folks for 20 YEARS and truly believed OIG would discover the truth and defend my innocence—defend the *law*. Who cleans contraband? Instead, OIG aided Bell’s and Upshaw’s covered up! That recorded interview with Wallace at the foot of the letter to 105 major stakeholders began to be seen as *increasingly* important over the last decade. Listen to it! Wallace *thought* I was a lawyer, **meaning TDCJ’s legal was part of the cover up.**

Your failure to see the injustice—my God, as a lawyer, too—is another irony added to many in the book.

You should go to the TDCJ Prison Museum alone, meet Stephens, ask him about the *Book of Secrets* in a one-on-one lunch. Ask him about *his* part in Bell, Upshaw, and Dunbar’s collusion to clean crime scene contraband. Hear his spin for yourself how it took TDCJ’s own techs **four weeks** to clean **escaped his wardens’ notice**. Why clean it in the first place? Why not trash it all and discipline the violators?

While you cannot “make right” any of this, if you *read* and *vet* the docs, you will see my innocence and more importantly see the underbelly of TDCJ you *cannot* see anywhere else. No one in TDCJ history or university-studying-prison has done this kind of work. **You can add to my ERS retirement 11 years at a Warden II’s pay to ERS, which will make my last days on earth less burdensome—that is possible—and perhaps more.** That will not erase the pain or make right the loss of connections, but that will be a small remedy to a grave decade-long injustice to me, and 25-plus years to chaplaincy, and only God knows how many other victims of scum like Upshaw and the compromised cowardly wardens under him. And you can offset the cost by attacking the dozen retired wardens and OIG IGs **irrefutably guilty of supporting and covering up** the Polunsky Fiasco and have them *volunteer* their portion of their retirement to avoid criminal charges for obstruction of justice and criminal charges for *cleaning* crime scene contraband—**destruction of evidence**—and more, including lying to several executive directors and embarrassing TDCJ and **YOU**. That is a small recompense for the last 11 years of work reflected in this book, work Wardens and Division Directors *should* have done—**if you read.**

Worse, in the book see who else was promoted. Worst, is it even possible to find out who else?

You have a huge responsibility ... or, just a political position that is spoon-fed what TDCJ wants you to see, with a worse feedback loop than Collier, even a zero feedback loop. **Who are you?** We shall see.

These play a critical part in your legacy, too, the legacies of your predecessors, and of TDCJ and TBCJ.

Volume 2 ~ 2011 - **Faith-Based Housing Letter**, 50 pp., www.PreciousHeart.net/Maness-Faith-Based-Housing.pdf, a December 2011 letter to Brad Livingston asking him to meet with a Barry Lynn of Americans United about **orders for all prisons to increase Protestant dominance** and the first exposure of the unconstitutional nature of the Prison Seminary Scam. I was persecuted for whistleblowing and forced to retire. *Patrick, yes, I really was, documented in books below* ↓ ↓ ↓

Volume 3 ~ 2013 - **Book of Secrets on the Longest Cover Up in TDCJ History: Case of the Enchanting Chaplain**, 700 pp., www.PreciousHeart.net/OIG/Treason.pdf, first 100 pp. on my persecution for whistleblowing with a falsified disciplinary, then TBCJ Chairman Oliver Bell with Michael Upshaw and Marvin Dunbar’s cleaning of crime scene contraband, followed by promotions of all involved, sent to TDCJ Director, OIG, and Texas AG. What **really** happened to cause such cover up?

↑ **Polunsky Fiasco**

Volume 4 ~ 2015 - **How We Saved Texas Prison Chaplaincy 2011—Immeasurable Value of Religion, Volunteers, and Their Chaplains** (AuthorHouse, 2015; 394 pp.), www.PreciousHeart.net/Saved. We networked to stop the deletion of TDCJ chaplaincy from the budget in the 2011 legislature, and we saved chaplaincy. The appendices show how chaplaincy recovers its operating costs several times over as well as the huge data streams ignored that show chaplaincy as the most productive of all the Rehab Division programs, likely in all together. *Ahh, Patrick, who else would document?*

Volume 5 ~ 2017 - **TDCJ Book of Secrets Part II—Goodman Unit Hiring Scam**, 180 pp., www.PreciousHeart.net/OIG/GoodmanUnit2017.pdf, the most detailed audit of a hiring package in TDCJ history, perhaps in prison history, showing violations on how a white warden hired a white career laundry man over a black U.S. Army combat veteran *career* chaplain, violating policy and ethics! *Yeah, Patrick, the most comprehensive audit of a hiring packet documenting racist hiring.*

Volume 6 ~ 2019 - **TDCJ Deep State Report: Case of the Collared Fox**, 177 pp., www.PreciousHeart.net/OIG/TDCJ-OIG-2019.pdf, with lampoon of hiring the lowest qualified manager over religion in penal history—shortly after, *another* cover up shell game (Chap. 18.F). **Cover Letters** to Collier, 50 TX leaders, jurists, district attorneys, more, summing the *Report*:

You have a heavy responsibility ... choose wisely ... above & book are critical to *your* duty.

You, sir, are **certifying** prisoner psychopaths counseling other prisoners *in* their disorders, 12 years running now, **your** TDCJ modelling the most scandal-ridden warden in penal history, and you a lawyer too!

Yeah, could've sent a one-pager ... but I took a chance that the First Edition was *not* totally ignored, that maybe you spent 5–15 minutes with it, and someone with your acumen can see a lot in 15 minutes. Regardless, this is your legacy and responsibility, even **your duty to end the Fool's Parade**. Or continue in the Fools' Parade, even by proxy with a flask of Cain's bullshit in *your* coat pocket—while officer retention, offender recidivism, general employee morale, and *the* whole TDCJ mission suffer. **Your legacy—fixed or fooled!**

Patrick!—the following two-pages are mostly a copy of the letters sent to the 105 on the back.
of course, ALL of them and the world can read ALL 105 online ... especially & hopefully yours.

The future of your legacy rides on your reponse, at least between you, me, & God.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies:** 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—**Is TDCJ's Rehab Division the most nefarious division?** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner “minister” program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for “deliberate indifference” doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition's **thousand refinements** further prove how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—**UTMB has not sent a single report** for the **\$300+ million tax dollars** TDCJ annually pays UTMB for prisoner **psyche care!** TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to “counsel” other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ chair and TDCJ director **lie** about neutrality and **lie** about cost. Then, the rare *non-lawyer* TBCJ Chairman Bell has **me** investigated as a “terrorist threat” for exposing *after* I email him a request for breakout session in the next labor consortium meeting, of which consortium I was a charter member! Yeah.

How does any media not see that as front-page newsworthy?

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You're a top stakeholder in prison efficacy. At 67, my days are fading. Silence has festered this Fools' Parade into 30+ state prisons, and the abuse of prisoners must end. **Patrick, silence is a nasty position, too.**

Bryan Collier, Executive Director
TDCJ - P.O. Box 99
Huntsville, TX 77342-0099

Dear Bryan:

I was innocent and set up by **scum traitor Michael Upshaw** and others, ruining my career in TDCJ, and so I documented like no one else in TDCJ history. You believed lies, because of ... well—will you ever figure it out? In 2012, when Stephens sent Polunsky Warden Richard Alford to investigate himself, that was sending the fox to check the hen house, and I documented in the *Book of Secrets* (2013) how Alford lied on paper. I kept exposing, *TDCJ Deep State Report* (2019), that you also failed to read. You even failed to listen to the recorded interviews that **exposed years of violations at Polunsky**, as though some staffers are not worth hearing. Upshaw and others pray you continue to *not read* ... trusting in how well they duped you for years.

Your failure to listen to the recorded testimony cost you honest respect throughout TDCJ by those senior employees a part of the prison culture you never had the ability to join, your rise coming from outside of the senior security network. **Then there's Cain's bullshit** you swallowed whole, making the most scandal-ridden warden in U.S. penal history a TDCJ model. If in the FBI, why is it inconceivable to you that TDCJ has a few rotten scum, like Upshaw, intimidating a few cowardly wardens to comply with his violations of policy?

You have the sorriest feedback loop, and some pray you'll *never* find it.

Texans TRUST TDCJ to do right. When YOU sponsor prisoner psychopaths to *counsel* other Texans' children *in* their disorders, TRUST is violated from the top down. **Ten years later, TBCJ missed three sets of infamies:** 1) Warden Cain's scandals; 2) TBCJ's refusal to see its gross gov/religion entanglement; 3) horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?***

Worse, you ignore scandals and nefariousness making TDCJ *lie* about neutrality, *lie* about cost of Norwood's scam, while **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband! Your legacy.

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**, further proving how checking nefariousness increases FAIRNESS, reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy. I formally ask you what you think of UTMB **not** producing a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care?

What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when the TBCJ is composed of more lawyers than any other single profession. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

At 67, my days are fading. **Give me one sentence, or send this back, so I can resend it.** Silence like a cancer has festered this Fools' Parade that you have led as a Naked King the last ten years and has festered into 30+ state prisons. **Abuse of vulnerable prisoners should end**, especially the use of psychopath prisoners to counsel other prisoners, rooted in the most scandal-ridden Louisiana warden in penal history—**your model!**

Dear John:

I sent the First Edition on the Ides of March 2022. Once more, I send. Surely, you or your staff got some of the letters over the last 13 years. You, sir, are **Dean of the Senate**, the most senior member. How does it feel to be *lied* to by so many in TDCJ over two decades? To be swooned by a Louisiana warden who would not qualify to be a TDCJ warden and is the most scandal-ridden in U.S. history? To be kept in the dark about so many abuses to the chaplaincy and religion in TDCJ for 25-plus years? Clear nefariousness and more?

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. Dear Edward:

Congrats on being at the editorial helm for *TIME*'s 100th. You *know* the work it takes to produce a book like this, and there is nothing like it. The media *absence* alone these last 12 years deserves a cover story, from several avenues. Striking is the Fools' Parade spreading to 30-plus other prisons in naiveté and multiple lies.

Dear Sewell:

Who you get to review is critical. You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies: 1)** Warden Cain's scandals; **2)** TBCJ's refusal to see its grossest gov/religion entanglement; and **3)** the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

This is right up your paper's alley, and odd that so much has escaped your notice for so long.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. You can help. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. This is an exposure that needs to be told, for all the prisons' sake.

Abel Herrero, Chairman
Texas House Committee on Corrections
P.O. Box 2910
Austin, TX 78768

Dear Abel:

This is a trust. Your voice is critical. You *know* the work it takes to produce a book like this. How do you *feel* about being *lied* to and being kept in the dark about all this for so long? This is just the short version.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies: 1)** Warden Cain's scandals; **2)** TBCJ's refusal to see its grossest gov/religion entanglement; and **3)** the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

This is right up your committee's alley, and **very odd** that so much has escaped your notice for so long.

TDCJ Dir. Bryan Collier's ignoring violations is a newsworthy scandal, of naïveté or nefarious cover up, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use *psychopath* prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

Sincerely,

Dear Neal:

Bob Alexander and Richard K. Alford’s sub-standard *Tall Walls and High Fences: Officers and Offenders, the Texas Prison Story* (UNT Press, 2020; 608 pp.) is not *near* in the league of the previous 11 volumes, and in fact misrepresents critical *history* exposed in my book, *When Texas Prison Scams Religion* (see Preface.B, xliv–xlvii). **Alford was nefarious and continues his cover up**, key player in the Polunsky Fiasco in my book.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans’ children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies:** 1) Warden Cain’s scandals; 2) TBCJ’s refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—***Is TDCJ’s Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ’s 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner “minister” program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier’s ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for “deliberate indifference” doesn’t cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to “counsel” other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a “terrorist threat” for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ’s tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

Because you published Alford’s cover up as a “Texas story,” your school is a stakeholder in prison efficacy. At 67, my days are fading. **One sentence from you, or send it back, so I can resend it—be accountable.** Silence like a cancer festered this Fools’ Parade into 30+ states. Your voice is important too.

Silence is a position, too, for the record now—please, weigh in—or send it back.****

Dear Mary:

This is a trust. Your voice matters! You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies:* 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Dear Greg:

This is a trust. Your voice matters! You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies:* 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

Sincerely,

Dear J. B.:

This is a trust. Your voice matters! You *know* the work it takes to produce a book like this. Most of this is new to you, but should have been made known a decade ago.

Texas TRUST Texas prison system (TDCJ) to do right. And this has national implications as this Fools' Parade is now sashaying through 30-plus states. When they use prisoner psychopaths to *counsel* other prisoners, TRUST is violated from the top down, ten years running. Texas *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies: 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals.* Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff.

This is right up your paper's alley, and odd that so much has escaped your notice for so long.

TDCJ Dir. Bryan Collier's ignoring documented violations is a scandal, of naïveté or cover up, *lying* about neutrality, *lying* about cost, *modelling* the most scandal-ridden in penal history, *hiring* the lowest qualified 25 years running, and *covering up* a TBCJ chairman *conspiring* to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a *single* report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ *destroys* records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use *psychopath* prisoners trained solely with four years of *elementary Bible* to “counsel” other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director *lie* about neutrality and *lie* about cost. Then the rare *non-lawyer* TBCJ chairman has *me* investigated as a “terrorist threat” for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

Sincerely,

Nancy Friedman, President
Houston AU
PO Box 550743
Houston, TX 77255-0743

Dear Nancy:

This is a trust. Your voice matters! You *know* the work it takes to produce a book like this. Most of this is new to you, but should have been made known a decade ago.

Texans TRUST Texas prison system (TDCJ) to do right. And this has national implications as this Fools' Parade is now sashaying through 30-plus states. When they use prisoner psychopaths to *counsel* other prisoners, TRUST is violated from the top down, ten years running. Texas *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies: 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals.* Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff.

This is right up your AU's alley, and odd that so much has escaped your notice for so long.

TDCJ Dir. Bryan Collier's ignoring documented violations is a scandal, of naïveté or cover up, *lying* about neutrality, *lying* about cost, *modelling* the most scandal-ridden in penal history, *hiring* the lowest qualified 25 years running, and *covering up* a TBCJ chairman *conspiring* to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a *single* report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ *destroys* records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use *psychopath* prisoners trained solely with four years of *elementary Bible* to “counsel” other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director *lie* about neutrality and *lie* about cost. Then the rare *non-lawyer* TBCJ chairman has *me* investigated as a “terrorist threat” for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

Washington, D.C. 20002

Dear Amanda:

This send is a trust and gift to you. You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies: 1)** Warden Cain's scandals; **2)** TBCJ's refusal to see its grossest gov/religion entanglement; and **3)** the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

This is right up your BJC's alley, and odd that so much has escaped your notice for so long.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. Silence has festered this Fools' Parade into 30+ state prisons. **Silence is also position.** Your voice means a lot to many, and I would appreciate a word or two, even an endorsement and help.

Dear Rachel:

This send is a trust and a gift to you. You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies:** 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

This is right up your organization's alley, and odd that so much has escaped your notice for so long.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence was asked from the others, yet I give this to you. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. Thanks for your courage.

Dear Linda:

This is a trust and a gift. **Dare you not even respond?** Dare you not even utter a word on *your* Institute for the Study of Religion’s director’s **mutilations** ... Baylor, a premier Christian university? Accountability!

You *know* the work it takes to produce a book like this. You do have a large stake in this, too, as *Distinguished* Professor Johnson is a leader in “religion” study yet *utterly failed* too many times for such trust.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans’ children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies:** 1) Warden Cain’s scandals; 2) TBCJ’s refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. TDCJ Director Bryan Collier’s TDCJ **lies** about neutrality, **lies** about cost, **models** the most scandal-ridden in penal history, **hired** the lowest qualified 25 years running, and **covered up** a TBCJ chairman shenanigans.

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

Among TDCJ’s tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You’re a top stakeholder in prison efficacy. At 67, my days are fading. Silence like a cancer has festered this Fools’ Parade into 30+ state prisons, nefariously in TDCJ for 25-plus years. Because of Prof. Johnson, **your stake, Linda, is perhaps the largest**, yes, for you and him, “To whom is given, much is expected”—**his million-dollar work did not have that many “mistakes”** (Chap 24)—**nope!**—ailments were lazily *purposed!*

This is a trust. Your voice matters! You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies:* 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

This book is a gift to you. Thanks for *your* work. You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies: 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals.* Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence was asked from all, yet this is a gift to you. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. Sure would appreciate a comment. You have a stake in this, too.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies:** 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

Most of the Baptist presses have been duped: Cain's program degrades the term "minister" and "church"!

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—powerfully. At 67, my days are fading. As a life-long Baptist and BGCT supporter—can you spend a little time with this book? **Baptists most of all** have been duped, betrayed, and scammed. You have a huge responsibility, too, to how much silence you'll endure.

Dear Jeremy:

This is a trust. You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies: 1)** Warden Cain's scandals; **2)** TBCJ's refusal to see its grossest gov/religion entanglement; and **3)** the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

This is right up your paper's alley, and odd that so much has escaped your notice for so long.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

Sincerely,

Dear Tanya:

This send is a gift and trust. Your voice matters! You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies: 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals.* Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner **psyche** care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. I give this to you, in a trust, and thank you, too, for your contributions, too. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. **Your voice matters.**

Dear Jody:

This send is a gift, a trust, and a hearty *Thank You* for your work on chaplains. You *know* the work it takes to produce a book like this.

Texas TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). *Ten years later, the TBCJ missed three sets of infamies:* 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—*Is TDCJ's Rehab Division the most nefarious division?* Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the *lying* about neutrality, *lying* about cost, *modelling* the most scandal-ridden in penal history, *hiring* the lowest qualified of the applicant pool 25 years running, and *covering up* a TBCJ chairman *conspiring* to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a *single* report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ *destroys* records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use *psychopath* prisoners trained solely with four years of *elementary Bible* to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director *lie* about neutrality and *lie* about cost. Then the rare *non-lawyer* TBCJ chairman has *me* investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. TDCJ nefariousness aside, the abuse of vulnerable prisoners itself should end—you have the work here.

Sincerely,

Dear Sarah:

This is a trust. Your voice matters! You *know* the work it takes to produce a book like this.

Texans TRUST TDCJ to do right. When TDCJ uses prisoner psychopaths to *counsel* other Texans' children in prison, TRUST is violated from the top down, ten years running. TDCJ *modeled* the most scandal-ridden warden in penal history (**BOOK 2**). **Ten years later, the TBCJ missed three sets of infamies:** 1) Warden Cain's scandals; 2) TBCJ's refusal to see its grossest gov/religion entanglement; and 3) the horde of Rehab Division scandals. Asked throughout—***Is TDCJ's Rehab Division the most nefarious division?*** Do not mistake this book for a *mere* exposé of those three infamies, for we hogtie those to the TBCJ's 25 years of indifference to religious abuse of prisoners *with* an inexcusable impunity for nefarious staff. A putrid irony spans decades: above *illegality* was under TBCJ chairmen and members, most of whom are high-dollar *lawyers!* Worse, the prisoner "minister" program has **metastasized** to 30 other state prisons.

This is right up your institute's alley, and odd that so much has escaped your notice for so long.

TDCJ Director Bryan Collier's ignoring documented violations is a newsworthy scandal, of either naïveté or nefarious cover up, for "deliberate indifference" doesn't cover the **lying** about neutrality, **lying** about cost, **modelling** the most scandal-ridden in penal history, **hiring** the lowest qualified of the applicant pool 25 years running, and **covering up** a TBCJ chairman **conspiring** to clean crime-scene contraband—just a few!

Second Edition has a hundred updates with added 2022 citations and a **thousand refinements**—some rancor cleaned, some rhetoric elevated—further proving how checking nefariousness increases FAIRNESS, that in turn reduces officer attrition and offender recidivism, and increases TRUST so *critical* to prison efficacy.

What?—UTMB has not sent a **single** report to TDCJ for the \$300+ million tax dollars TDCJ annually pays UTMB for prisoner *psyche* care. TDCJ **destroys** records on violence in a criminology capital crime, covering up so that history *cannot* be analyzed, or *anyone* learn anything. **What else is destroyed?** What psychological ailment afflicts *directors* who use **psychopath** prisoners trained solely with four years of **elementary Bible** to "counsel" other prisoner disorders? Irony compounds when most of the Texas Board of Criminal Justice (TBCJ) are composed lawyers more than any other single profession—experts in *law* hiding. In all this, the TBCJ and TDCJ director **lie** about neutrality and **lie** about cost. Then the rare *non-lawyer* TBCJ chairman has **me** investigated as a "terrorist threat" for exposing the above. **How does any media not see that newsworthy?**

Among TDCJ's tens of thousands of great employees—I had the honor to work with many for two decades in the prime of my life—several documented rascals have gotten away with criminal behavior *for decades*.

You are a top stakeholder in prison efficacy—clearly and powerfully. At 67, my days are fading. One sentence, **or send it back**, so I can resend it. Silence like a cancer has festered this Fools' Parade into 30+ state prisons. TDCJ nefariousness aside, abuse of vulnerable prisoners should end—please, weigh in.

Sincerely,

Defense Against Killing Professional Chaplaincy Series

After dozens of letters, 100s of OR requests, and several books documenting with zero response from major players, what is TDCJ and Collier *really* covering up?

Volume 1 ~ 2001 – Chaplain Professional Equity Proposal, 100 pp., [www.PreciousHeart.net/chaplaincy/01-Chaplain Pt 1 Proposal 2000.pdf](http://www.PreciousHeart.net/chaplaincy/01-Chaplain_Pt_1_Proposal_2000.pdf), first Market Study in TDCJ history given to 2001 legislature, with Chaplaincy Division proposal, won first pay group pay raise in 40-plus years; then Part Two w Violations Timeline, [www.PreciousHeart.net/chaplaincy/01-Chaplain Pt 2 Timeline 2001.pdf](http://www.PreciousHeart.net/chaplaincy/01-Chaplain_Pt_2_Timeline_2001.pdf), delivered to Dir. Gary Johnson documenting nefariousness, with hiring lowest qualified, reducing qualifications to suit favorite. → 22 years old now!

Volume 2 ~ 2011 - Faith-Based Housing Letter, 50 pp., www.PreciousHeart.net/Maness-Faith-Based-Housing.pdf, a December 2011 letter to Brad Livingston asking him to meet with a Barry Lynn of Americans United about **orders for all prisons to increase Protestant dominance** and the first exposure of the unconstitutional nature of the Prison Seminary Scam. I was persecuted for whistleblowing and forced to retire.

Volume 3 ~ 2013 - Book of Secrets on the Longest Cover Up in TDCJ History: Case of the Enchanting Chaplain, 700 pp., www.PreciousHeart.net/OIG/Treason.pdf, first 100 pp. on my persecution for whistleblowing with a falsified disciplinary, then TBCJ Chairman Oliver Bell with Michael Upshaw and Marvin Dunbar's cleaning of crime scene contraband, followed by promotions of all involved, sent to TDCJ Director, OIG, and Texas AG. What *really* happened to cause such cover up?

Volume 4 ~ 2015 – How We Saved Texas Prison Chaplaincy 2011—Immeasurable Value of Religion, Volunteers, and Their Chaplains (AuthorHouse, 2015; 394 pp.), www.PreciousHeart.net/Saved. We networked to stop the deletion of TDCJ chaplaincy from the budget in the 2011 legislature, and we saved chaplaincy. The appendices show how chaplaincy recovers its operating costs several times over as well as the huge data streams ignored that show chaplaincy as the most productive of all the Rehab Division programs, likely in all together.

Volume 5 ~ 2017 - TDCJ Book of Secrets Part II—Goodman Unit Hiring Scam, 180 pp., www.PreciousHeart.net/OIG/GoodmanUnit2017.pdf, the most detailed audit of a hiring package in TDCJ history, perhaps in prison history, showing violations on how a white warden hired a white career laundry man over a black U.S. Army combat veteran *career* chaplain, violating policy and ethics!

Volume 6 ~ 2019 - TDCJ Deep State Report: Case of the Collared Fox, 177 pp., www.PreciousHeart.net/OIG/TDCJ-OIG-2019.pdf, with lampoon of hiring the lowest qualified manager over religion in penal history—shortly after, *another* cover up shell game (Chap. 18.F). **Cover Letters** to Collier, 50 TX leaders, jurists, district attorneys, more, summing the *Report*:

www.PreciousHeart.net/OIG/Big-50-Send.pdf →

How extensive are the violations in TDCJ? While in the Rehab Division, then how many other divisions are **as nefarious or worse?** Is there another TDCJ division with more violations of policy, racist hirings, and cover ups than Rehab Division? Who will find out?
